

VII International Symposium on Animal Biology of Reproduction (ISABR 2018)

Focus: Reproductive Biotechnology and Future

November 6th to 9th, 2018, Aracaju, SE, Brazil

- Presentations must be delivered in the English language.
- Please bring your presentation on digital media such as a pen drive or individual laptop computers.
- We have allotted a total of 15 minutes for your presentation. This includes the questioning period. Therefore, you should plan your presentation so that it will not exceed 12 minutes in order to leave three minutes for questions. If your presentation exceeds 12 minutes, the time for questions will be shortened accordingly. Under no circumstances will you be allowed to speak for more than 15 minutes. We strongly recommend that you carefully plan and rehearse your presentation to ensure that you will stay within this time limit.
- Before the session for your scheduled presentation begins, please provide the presenting author name to the session chairperson.

November 8, 2018 – Thursday

16:00 to 16:15 - **Sandra Fiala Rechsteiner** (HISTOREP, Institute of Biology, UFPel, Pelotas, RS, Brazil)
Influence of cortisol and leptin in the follicular fluid on leptin markers in the endometrium

16:15 to 16:30 - **Ludimila Cardoso Zoccal Janini** (Course of Veterinary Medicine - UniSALESIANO Araçatuba, SP, Brazil)
Evaluation of the zebu cow pregnancy rate with the use of estrus detection device

16:30 to 16:45 - **Juneo Freitas Silva** (Department of Biological Sciences, UESC, Ilhéus, BA, Brazil)
Role of Estradiol in Prolactin-induced suppression of Luteinizing Hormone pulsatile secretion

16:45 to 17:00 - **Jair Camargo Ferreira** (School of Veterinary Medicine and Animal Science, UNESP, Botucatu, SP, Brazil)
Luteal function and embryo mobility in mares with distinct ages and degrees of endometrial degeneration

17:00 to 17:15 - **Gustavo Ferrer Carneiro** (UFRPE-UAG, Garanhuns, PE, Brazil)
Intrauterine infusion of Ozone in susceptible mare

November 9, 2018 – Friday

15:00 to 15:15 - **Priscila Di Paula Bessa Santana** (Laboratory of *in vitro* fertilization, Institute of Biological Science, Federal University of Para (UFPA), Belem, PA, Brazil)
Morphometry, cell quantification and immunolocalization of AMH in bovine testis fetuses

15:15 to 15:30 - **Jorge Farías** (Department of Chemical Engineering, Universidad de La Frontera, Temuco, Chile)
PKA and AMPK activities and relation with motility in cryopreserved spermatozoa of Atlantic salmon

15:30 to 15:45 - **Gabriel Regis Guerrieri Esperidião** (Laboratory of Animal Reproduction (LARA), Federal University of Alagoas, Viçosa, AL, Brazil)
Intrafollicular oocyte transfer (IFOT) in ewes – initial study

15:45 to 16:00 - **Bruna Fabro dos Santos** (São Paulo State University (UNESP), School of Veterinary Medicine and Animal Science, Botucatu, Brazil)
Superoxide anion formation, high mitochondrial potential and the membrane integrity of stallion spermatozoa from phar-macologically-induced ejaculation

16:00 to 16:15 - **Cindy Maenhoudt** (UMES-Centre d'Etudes en Reproduction des Carnivores (CERCA), Ecole Nationale Vétérinaire d'Alfort, Maisons-Alfort, France)
Canine fetal sexing: possibilities and limitations
